It is expected that Columbia will be full of people next Friday and Saturday. Come in and buy what you need for a little money. Also attend the moving picture shows, free. Every farmer who comes to Columbia on these days, the 17th and 18th, will be made glad. Come, and come a running.

The Graded school team defeated the own team in a contest last Thursday afternoon, the score being 13 to 9 in favor of the Graded school.

Important.

The Merchants of Columbia are showing their liberality in the most sweeping discounts to purchasers on next Friday and Saturday, ever offered in this town. By agreement, every one of them will have a bargain counter. They are not attempting to unload out-of-date goods, they are not expecting to make a dollar in the two days sale by selling high on some articles when low prices are advertised on others. It is a movement out of the ordinary and made purposely for the benefit of the country. You will have no room to complain but many reasons to feel good by a visit to Columbia on the Two Great Bargain Days. First class stock in every line—goods you are compelled to buy from some one will be offered you at astounding low prices. Again, it is your opportunity to see the Moving Picture Show without spending a penny. The News makes its discounts attractive just to keep in the procession and will be in position to give you a ticket to the most attractive show south of the North pole. Come in and have a day or so of rest and profit before your crop forces you to keep in the field. The Hancock Hotel, the best hotel in South Central Kentucky, will give you meals on those days for 20 cents. Judge Hancock knows how to give good treatment, and he will be glad to have you call. He is in full accord with the great bargain days.

Bearwallow Decoration.

The program for Bearwallow the 30th of May is as follows:
9:30 a. m. Singing by Lucien Burton and others.
10 a. m. Preaching by Tobias Huf-faker and Jo Turner.

The Town Trustees, of Greensburg, held a meeting and decided to advertise for bids for an electric lighting plant to be operated in Greensburg. Bids will be received on the 10th inst. It is reported that a storage system is to figure largely in the operating of the lights, but it is hoped the franchise may be granted on a basis that will allow the storage system to be relied on only for an important period of each night.

The schedule of the Greensburg accommodation train has been changed for Sundays only. It will arrive in Lebanon enroute to Louisville at 7:44 a. m. and returning will reach Lebanon at 9 p. m. The week day train will arrive as heretofore at 7:05 a. m. and return at 8 p. m.

Rev. S. G. Shelley will preach the Commencement sermon of the Lindsey-Wilson at the Methodist church next Sunday forenoon.

A Few Days in the Blue Grass Metropolis.

On Thursday morning May 2nd, the writer, with his grandson, Cyrus Williams, left Columbia at 2 o'clock in the morning for Lexington, Ky., in search of an eye and throat specialist. We drove old Allen to Campbellsville in due time to catch the train for Lebanon. When we reached Lebanon the vote was being taken on the question of "wet and dry and the town was full of people, many coming from different parts of the county to see how it was going. A large procession was marching the streets, flying "Old Glory" and carrying banners with suitable mottoes for the occasion, some as follows:

"Papa vote for me," "Woe unto him that putteth the bottle to his neighbor's lips, Save the Boys, Vote for the Dry's, &c. Two bands were in the procession, one colored and one white folks. It was a touching scene to see women and children, who are the ones, that suffer the most from the effect of strong drink and drunkenness. The mothers, wives, sisters and children suffer the abuse of drunken fathers, brothers and sons. But in spite of all the entreaties of men, women and children the town went wet.

The election will be contested and I predict the dries will win. Several saloon men have already rented old saloons to commence business as soon as the matter is settled, and if this contest should be decided in favor of the wets, then in June the vote will be taken under the new County Unit Bill, and then she will go dry. The majority of the good people of Lebanon do not want whiskey back and saloons reopened.

We learned that one man from Hustonville rented the old saloon connected with the Vaughan hotel and agreed to pay one hundred dollars per month and went back home and Sunday afternoon dropped dead without any warning.

Hab. 2: 15-17 "Woe unto him that giveth his neighbor drink, to thee that addest thy venom, and maketh him drunken also, that thou mayest look on their nakedness! 16 Thou art filled with shame and not glory: drink thou also, and be as one uncircumcised, the cup of Jehovah's right hand shall come around unto thee and foul shame shall be upon thy glory. 17 For violence done to Lebanon shall cover thee, and the destruction of the beast which made them afraid because of men's blood, and, and for the violence done to land, to the city, and to all that dwell therein." R. V.

Columbia is interested in this contest, for the people would suffer more than can be told from the easy access to the drinkers of this and adjoining counties. So we trust and pray that the contest will be decided in favor of the dries. The Anti-saloon League comes in to take the lead in this contest and always shows their hand in the wanted place.

We left Lebanon on time and arrived in Lexington at 3:30 p. m. We stopped at the Seebach hotel, rented rooms and started for Dr. Stucky's office which was within a block of the hotel. After an examination of Cyrus Williams' eyes the doctor decided that one eye was hopelessly gone, but the other was in good condition, and might not trouble him for a long time and might never do so. His tonsils were removed on Saturday and he remained in the Good Samaritan Sanitarium until Sunday afternoon and returned to the hotel. We started for home Monday morning at 9:45 and arrived at Columbia at 3 o'clock the next morning.

While in Lexington I met quite a good many Adair county people, and a number of friends from other places. I was entertained at the home of my friend and comrade in travel to Palestine in 1900, R. H. Crossfield, who is now President of the Bible College and Transylvania University. Mr. Crossfield is one of our best and greatest men, and is leading old Transylvania to higher and better things. Four of us Kentucky preachers started together on the trip to Palestine in the year 1900, J. W. McGarvey Jr., P. H. Duncan, R. H. Crossfield and myself. It was a great trip, and long to be remembered, and the days, traveling through the Bible lands on horseback and camping in tents at night, visiting the cities where Christ and Apostles spent so many happy days together, where the blind were restored to sight and the dead raised up keep fresh in our memory, and when any two of us meet, we go the trip over again. One of our number has already entered the other Canaan and the New Jerusalem that will come down out of heaven adorned as a bride for her husband. J. W. McGarvey, the youngest of our company and the jolliest has gone to his reward.

I had the pleasure of being entertained in the home of R. W. Wallace, one of Adair county's boys, who is now preaching for the Woodland Christian church, and has a splendid organization, and is doing a good work. Will is a splendid young man, and we are proud of him as one of Adair's boys.
Miss Mattie Taylor is teaching in the Campbell Hagerman College, and stands high as a music teacher, and has held the place a number of years. She always gives her Adair county friends a happy welcome when they come to Lexington. She expects to spend most of her vacation in Columbia.
We had a pleasant visit to the Bible College where we met another Adair county boy, Walter Taylor, who is there in school. He met us with a smile, and made the visit pleasant and helpful. Walter stands high both with his teachers and classmates. We had a Sunday dinner with him at the dormitory, and it was a splendid meal for any place. We also had the pleasure of visiting the home of Mrs. Ann Warner, formerly of Longbottom, on the Cumberland river, where I used to preach and be in their home when the three children, Herbert, Charlie and Kate were the delight of the home, and always gave the writer a hearty welcome. They are all grown, and have prepared themselves for useful lives. They have been in Lexington for two years. Charlie was home on a visit from Chattanooga, where he has a good position with the railroad company. Herbert is in Denver, and has a position that pays him more than \$70 per month. Miss Katherine is a grown young lady, attractive, and of a lovely disposition. She is a soloist, and sings for the Broadway Christian church—is numbered as one of the best soloists in the city. Mrs. Warner is sister of Mrs. Tom Charlie Davidson, of Columbia. It was a delight to be in this family of old friends once more.
We had the pleasure, both on going and coming, of visiting the family of Dr. O. S. Dunbar, now of Lebanon, Ky., Mary Elizabeth gave us a hearty welcome and insisted on us remaining over night with them. They have a good home there and a good business but they are not sure of making that their future home. It is hard for people to live in Columbia as long as they have, and be satisfied to stay away, and so we expect them back some day.
Z. T. Williams.

Dead.

Miss Ada May East, daughter of Mrs. Rose East, died Wednesday of last week. She was about twelve years old and had been afflicted for several months. She was a sister of Mrs. Nolan Montgomery, this place and was a good Christian girl. The mother and other members of the family have the sympathy of the neighborhood where the deceased lived all her life.

The Elizabethtown News says that at a called session of the Board of Education, Miss Minnie Kemp, of this place, was retained as teacher in the High School. The paper further states that Miss Kemp had other flattering offers, hence its early action and the further fact that her service has been of such a character as to commend her to all friends of the institution.

Rev. D. H. Howerton delivered a very interesting baccalaureate discourse before an immense audience at the Baptist church last Sunday forenoon. The sermon was directed to five Graded School students, who will be awarded diplomas this week. The sermon was well prepared and delivered in a most captivating manner.

Friends of Miss Martha Paxton Moffett, are in receipt of invitations to the Graduating exercises of the Pandolph Macon Woman's College Lynchburg, Va. Miss Moffett is pleasantly remembered by the young people of Columbia, having visited here in the past, and her many friends congratulate her on the completion of her course and the honors attained at this institution of learning.

In order to close out our entire stock of millinery, we will sell at cost the remainder of May.

Kate B. Squires.
H. W. Wilson.
Cane Valley, Ky.

Sights to be seen in Columbia next Friday and Saturday. People from the adjoining counties are invited to come and mingle with the home folks. They will be great bargain days, and a fine show will be in motion.

Mother's Day was observed at the Presbyterian church Sunday evening. The pastor paid a high tribute to the noble, christian mothers of our land.

Circuit court will open next Monday. Democratic candidates for Congress will be here and will address the people.

Born, to the wife of G. O. Bassett, Monticello, Friday May 3, 1912, a son.

"O Tempora O Mores!"

When officers seekers fall out honest men get their dues. Theodore Roosevelt says that William H. Taft is a crook. All right. Let us grant, for the sake of argument, that he is. That makes Theodore Roosevelt a liar, because he told us that William was a good man. when it suited his purposes to palm him off upon the United States. William has not changed a bit. He is just the same as he was and Theodore knows no more about him now than he did then. The difference is that Theodore Roosevelt wanted him to be President when he described him as a first-rate man who would "carry out my policies" and now he finds him a crook when he does not want him to be President.

The whole affair—this cut and thrust between the President and the former President—is disgusting. Neither man—the President who has laid aside his dignity to get into a brawl with a professional brawler, or the professional brawler who has laid aside every scruple and all decency in the hope of getting office, ought to go to the White House. In office Col. Roosevelt extremely wearisome with his policy of noise and connivance. He continually shouted about virtue and compounded with villainy. His sins, we hope, found him out too far and wide for there to be a possibility of his being re-elected in the event of his nomination. They are at least known to the Republican party and should eliminate him from their consideration.

Consider the sorry spectacle of a man who is megalomaniac enough to compare himself with Abraham Lincoln, bawling from a thousand platforms that his former friend, and political legatee, is a crook, and the equally sorry spectacle of a man occupying the highest office in the greatest Republic, wielding greater power than any King, down in the blood and muck of the bull ring providing entertainment for the mob.

Neither of the candidates is a statesman. President Taft has proven a "good-natured fat man surrounded by persons who know exactly what they want," as he was aptly described. Theodore Roosevelt has proven fussy individual whose fuss is made wholly in the interest of his political ambition, and whose utterance with regard to his virtues and qualifications convict him—if he believes them—of vanity that can not co-exist with a really well balanced mind. As President he was a circus performer rather than a political reformer. As a candidate he is hand-in-glove with the head of the Harvester Trust, and in office he was gone to by the Steel Trust as the friend in need and proved the friend indeed. In previous campaigns he went to the capitalists he was fond of bully-ragging from the stump and secured campaign funds. He is doubtless being financed in his present race from equally questionable sources.

Mr. Taft should be nominated, rather than the turncoat and trickster who opposes him. But a Democrat should be elected. In the meantime the debate between Taft and Roosevelt causes

us to cry out, in the words of a Texas editor, "O Tempora! O Mores?" Oh, H—I.—Frankfort News Journal.

The Olympic Strike.

The strike of the seamen of the White Star liner Olympic, which caused the steamer to tie up and abandon her voyage to New York, serves to show how little is to be expected from the traveling public in the way of reform in providing for saving passengers in the event of a wreck. The Olympic was full of first, second and third-class passengers who were ready to sail. A seaman says he could stick his thumb through the canvas of one of the collapsible lifeboats and others assert that the entire outfit was old-fashioned and unsuitable. Of course the seamen may have been exaggerating. But as long as passengers get comfortable cabins, ten course dinners and plenty of room on the promenade deck few will look into the question of whether the life-boats are what they ought to be. Moreover, few of them would be competent to judge.

Russell Springs.

At a booster's meeting held here last week the question of a turnpike between here and Columbia was discussed. On account of the unprecedented rains for several months past, it seems there is hardly any bottom to the mud in many places, and the sentiment of a big majority of our people is that we greatly need, and must have a good pike road all the way from Columbia through to Greasy creek. What are the people of Columbia willing to do toward the enterprise? Let us hear through the News.

The Russell Springs hotel property has lately been purchased from Winfrey and Phelps, by J. P. Bickwell, of Berea, and leased to I. M. Tuller from Arkansas. It is now being substantially improved and re-furnished throughout. The famous spring, so rewarded for its health receiving properties, will be encased and surrounded by a concrete floor, which is sure to greatly improve the quality of the water. It is the intention of the owner and present manager to make this health resort a delightful place to come and recuperate health, and rest under the large oak trees during the health season. Hotel will be opened for reception of guests June 1st, rates only \$1 per day.

In spite of the present discouraging prospects for farming, our farmers are certainly enjoying a measure of prosperity from the poultry business. For several weeks the buyers have been coming and going with large loads of hens and ducks, paying the farmers about 10 cents per pound, gross weight.

What our farmers should do more of is to raise tame grass and live stock especially beef cattle, not a pound of steak can be had here at present.

Chinese "Little Lands."

The idea of the "little farm" has stuck China, and will be used to aid famine refugees and those who have lost everything in the war.

Sell-help is the fundamental idea according to plan as out-

lined in a recent consular report. The workers and their families will receive financial assistance for their maintenance until the first crop has been harvested. Afterwards they will be expected to support themselves and pay an amount sufficient to meet any Government tax on the property as a whole and interest on the money expended in giving them start.

A provision is included in the plan which will enable the tenants to pay a large part of these taxes in labor, should cash payment be too heavy a burden.

A number of families have already been installed and will develop small farms and market gardens on the land. If the plan is successful on the 120 acres already secured near Nanking, the idea may be extended to aid thousands of people. It may even be taken up as a Government project, as Dr. Sun Yat Sen, President of the new republic, has joined the organization Committee.—Louisville Herald.

Useful Agent For Show.

Al G. Field, the minstrel man, has another story which he is telling. He says that not long ago an attache of his show was sent out in an Iowa town to give some handbills, or heralds, to boys for distribution. The man found only one boy willing to work. He didn't deem it necessary to explain to the boy that the bills were to be distributed about town. He took it for granted that the boy knew. The youngster took the printed slips of paper and the man gave him a quarter and left. Half an hour later the showman chanced to pass along the street and saw the boy standing on the sidewalk.

"What's the matter?" asked the man.

The boy gave a couple of final sobs and, wiping his eyes on his sleeve, said:

"A man just come along and took one of my bills."

Sounds Like Blasphemy.

Wheeling, West Virginia, Judging from an appeal made to Providence by the evangelist, Billy Sunday, is in a bad way. In the course of the closing prayer at one of the revivals recently held in that city Mr. Sunday asked a special blessing for everybody and everything in Wheeling, and reference to the City Council gave the Almighty the following information and advice: "God bless the members of the City Council, Oh Lord; that's a tough bunch, if there is any bunch on earth that needs thy assistance and aid it is the council of this city. Reform them, O Lord! I know that I am asking you to do a hard job and I advise you to get a pair of rubber gloves and a bottle of disinfectant before you start."—Harrodsburg Herald.

Escapes An Awful Fate.

A thousand tongues could not express the gratitude of Mrs. J. E. Cox, of Joliet, Ill., for her wonderful deliverance from an awful Typhoid pneumonia had left me with a dreadful cough," she writes. Sometimes I had such awful coughing spells I thought I would die. I could get no help from doctor's treatment or other medicines till I used Dr. King's New Discovery. But I owe my life to this wonderful remedy for I scarcely cough at all now." Quick and safe it's the most reliable of all throat and lung medicines. "THE MADE-TO-WEAR PAINT"

Has stood the test of time and has been improved in quality with the passing years.

Many brands of paint are offered for sale and quite often careful scrutiny is not given the subject with reference to the quality of the paint to be used.

EXPERIENCE IS A GOOD TEACHER. TEST THE QUALITY.

It is a good idea to learn the composition of the paint you intend to use. There is a difference.

The printed formula appears on every package of Hanna's Green Seal Paint.

JORDAN PEACOCK.

Jordan Peacock, No. 1148 will make the present season at McKinney, Lincoln Co. I have placed him in the hands of Mr. Dick Scudder for this season.

NOBLE PEACOCK.

This fine young Stallion will make the season at my barn in Gradyville, Ky., at the low price of \$15.00 to insure a living colt. Noble Peacock, is of Jordan Peacock, first dam by Artist Jewel, 2 dam by Cronwell Denmark 73, 3rd, dam by Artist 75. This is one of the best bred Stallion in Kentucky and is a first-class Saddle horse, has been shown several times and always in the money. If you want to raise a good colt and one that will bring a good price bred to Noble.

TWO FINE JACKS.

My two fine Jacks will serve mares for \$10.00 for a mare mule and \$8.00 for a horse mule, to insure a mare with foal.

They are two of the best Jacks that was ever in Adair county. Last year was the first season for Black Diamond and the second season for Highway. Their colts sold last fall from \$70.00 to \$125.00. Average \$91.83.

Parties that sold some of these mules: Henry Parson 1 for \$100.00; P. N. Blades 2 for \$250.00; Luther England 1 for \$85.00; Albert Brummett 1 for \$85.00; Robert O. Keltner 1 for \$80.00; C. M. Hindman 1 for \$77.50; Huston Bradshaw 1 for \$75.00, and Squire Kemp 1 for \$80.00.

These are just a few that brought these prices. I measured 46 of Highways colts last fall that was from 3 feet 5 in. to 3 feet 9 in. at 7 days old, they averaged 3 feet 6 in. Now if you want mules that bring the must money you can get them at my stable. My Jacks have the size. Money due if mares or traded and leave the neighborhood.

Respectfully,

W. L. GRADY.

Glennville, Ind.

May 6, 1912.

Dear Editor:—

Please find space in your paper for a few lines from a little girl. I left Greenwood the first of April, and we are running a farm. Papa had to leave town on account of health. We are on White river 12 miles south of Indianapolis on the Illinois Central. The lake runs by our house. It is a fishing resort, and they come from all over the State to fish here. I want to say to my little friends, I was going to make a garden the other day, and was crossing the bayou. I had a steel fork in my hand, and I saw a fine carp fish, and struck at it with my fork. It was so large I had to call papa to help me land it, and it tipped the scales at 12 pounds.

It is lonely out of town, but I will go back this winter and go to school. School is out now.

I have a nice Jersey cow, and I want to raise one hundred chickens. I have a nice garden planted.

Hoping to hear from some of my friends, I am a little school girl.

Grace Winfrey.

Fuss and Feathers.

In the chicken yard opportunity knocks about once every hour. Roosters don't grow tenderer as they grow older. Don't let them die a natural death.

Carry a lead pencil in your pocket and date the eggs as you gather them from day to day.

If the fool-killer should always show up at the right time there wouldn't be people enough left to set the hens.

If your wishbone is more fully developed than your back-bone, you'd better stay out of the chicken business.

Why we Should Fear Bugs.

The feeling of instinctive revulsion against parasites of all kinds which characterizes humanity generally, and which is due to something much more than the mere pain or annoyance that their bites might inflict, becomes more interesting as further discoveries show the roll of such insects in the spread of disease. Unfortunately this natural abhorrence has not been enough to protect man under conditions of poverty and uncleanliness from harboring such parasites; and now those who understand how much more than a mere personal annoyance is in question from the existence of parasites must take up the problem of eradicating them. The

possibility of the bedbug conveying relapsing fever, typhoid and leprosy, has been suggested and apparently there is no parasite of man that may not be a mode of disease conveyance. Flies, fleas, mosquitoes and bugs—not only are all under suspicion, but most of them are also actually demonstrated as ordinary and frequent conveyors of diseases of numerous and various kinds. According to The Journal of the American Medical Association health authorities must now take up the problem of getting rid of insects parasites in order to stamp out disease.

A Widow at 14 Years Old.

Youngest of the two dozen brides widowed by the foundering of the Titanic, Mrs. Celary Alexander, 14 years old, a pretty Syrian girl, called at the White Star office to-day and told through an interpreter the story of how her husband was parted from her when the officers of the vessel thrust her into a lifeboat.

Her husband, she said, came to this country several years ago and prospered in business in Wilkes-Barre, Pa., so that this year he decided to go back to Syria for a wife. Among all the maidens in his village at the foot of Mount Lebanon he singled out this girl and they were married about two months ago. They started back aboard the Titanic with 142 other Syrians, all from the same district. Of these 125 were drowned and twenty-nine were brought here by the Carpathia. The child widow, when seen to-day, still had her finger nails stained with the red ink painted there on her wedding night, according to the Syrian fashion.

The Syrians will all be sent to their friends in Pennsylvania. They lost practically all their property, that of Alexanders

Secretary of Democratic National Committee Gives Statement of His Views

BUSY ARRANGING THE DETAILS

Owensboro, Ky., May.—"It is needless to say that in the State convention I shall stand, or fall, with my friends—the same friends with whom I stood at Lexington four years ago, chief of whom is Ollie James."

This is the close of "A Personal Statement" issued by Urey Woodson, editor of the Owensboro Daily Messenger, and secretary of the Democratic National Committee. Mr. Woodson, who has not expressed a preference for any of the candidates for the Democratic presidential nomination, declares in the Messenger today that he is in favor of the Kentucky delegation being instructed for either Clark, Wilson or Harmon. He is strongly opposed to an uninstructed delegation representing the Blue Grass State at Baltimore. Mr. Woodson will be forced to spend a great portion of his time between now and the Kentucky State convention in Baltimore, and prior to his departure for the Maryland city, made the following signed statement:

WOODSON'S STATEMENT.

"My duties as one of the officers of the Democratic national committee unfortunately are keeping me away from Kentucky at this very interesting period. I am just home from Baltimore for a few days. I must return East on Saturday.

"The responsibility for many of the details of the arrangements for the Baltimore convention has been placed upon my shoulders. The convention hall is being remodeled to accommodate the great crowds that will gather at Baltimore. Two great galleries to increase the seating capacity at least 5,000 are under construction. Several additional exits to insure the safety of the people are being made. In connection with Chairman Mack, I am looking after these matters, the seating arrangements for the press, the delegates and spectators. The organization of the staff of employees to man the convention hall, and countless other things. I am receiving hundreds of letters and telegrams from all parts of the United States, which must be considered and answered. I am working on the preliminary organization for the cam-

paign in all the States. This is vital.

GREAT RESPONSIBILITY.

"I am compelled to make this statement in response to inquiries by friends and others as to why the Messenger has not taken a more aggressive part in the present campaign. It is difficult to edit a daily paper from a distance of a thousand miles and impossible to participate in caucuses and conferences under such circumstances. Moreover, as an officer of this great committee, I have felt, as the chairman does, with the responsibilities that are upon me, it would be hardly proper to participate actively in the campaign in behalf of any candidate for the nomination.

"However, I feel it not improper to state that I earnestly favor the instruction of the Kentucky delegation to Baltimore. Unfortunately, the new Kentucky primary law does not include the selection of delegates to national conventions. I advocated this before the law was enacted. I earnestly urged the authors of the bill to include it. We must come to this in Kentucky and will come to it before another presidential election in ten or more States there are such laws. In the absence, however, of this law, the voters should demand at every county convention the instruction of all delegates.

DENIES STATEMENT.

"In a recent issue of the New York Sun, in a statement purporting to come from the Harmon headquarters, I was referred to as 'Bryan's mouthpiece in Kentucky.' This is not true. It never was true. But to the Democrats of Kentucky I am glad to repeat the advice Mr. Bryan has so often given to his friends: 'Instruct your delegates from the precincts up, and they cannot then, misrepresent you at the State or National conventions without putting dishonor upon themselves.'

"Whoever the choice for President in Kentucky, whether it be Clark, Wilson or Harmon, let us have instructions. Whatever the choice for State chairman or National committeeman, let us have instructions. If I have not served the party well in the latter capacity, let the party say whom it wants as my successor. If there be another who wants the place bring him out in the open and give the voters a chance to decide upon his merits.

"It is needless to say that in the State convention I shall stand or fall with my friends—the same friends with whom I stood at Lexington four years ago, chief of whom is Ollie James.

Try the New Mill's flour, as White as Snow, if you want a Flour with the high flavor that nature gives it. Bakes better, rises better. It makes the old man that went to mill on a mule 25 or 30 years ago think of his boyhood days, when the flour was ground on the old fashion burrs. Verry often we hear them speak of how healthy, how rich the flavor was. The Midget Marvel makes it, bolts it in the good old fashioned way. The proof is in every sack, when the cook finds it rises with half the soda. We cordially invite you to our New Mill.

A Remedy No Family Should Do Without

No matter how healthy a human being may be it is safe to say that not many months are passed without some obstruction of the bowels, in other words, constipation, even if only temporary. The bloating, the dull feeling may start after the evening meal. If a laxative is not taken that night it is certain that sleep will not be sound, and you will awaken unrefreshed. Hence, it is important for you and for all the members of your family that a good, reliable laxative be always kept in the house for just such emergency. It is sure to be needed, and when needed you want it at hand. No family that is careful of its health can do without such a remedy. But the question of which remedy to have on hand is also of vast importance.

The laxative most highly recommended by the majority of intelligent Americans as being best for babies and grownups is Dr. Caldwell's Syrup Pepsin.

It is a liquid laxative- tonic, mild, and never gripes, is effective on robust people and can be given with safety to an infant. Children like it because of these gentle qualities and because it is pleasant to the taste.

It is the best all-around remedy you can have in the house for any disorder of the stomach, liver and bowels, and many people like R. H. Morgan, Price, Tenn., and Mrs. H. C. Davidson, Wart- race, Tenn., say they would as soon be without the necessities as without Dr. Caldwell's Syrup Pepsin.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

It is figured out by a New York critic of the defects in our system of handling criminals that Harry Thaw has cost New York \$151,000 since he murdered Stanford White, and says that if the use of unlimited money in an effort to get this moral idiot and homicidal lunatic out of the asylum is kept up it will succeed after Harry has cost the State a good deal more. The Millionaire murderer is indeed an expensive factor of the modern social problem. Here in Kentucky we have never had one. The nearest approach to Harry Thaw in this State is "Beech" Hargis, the bad boy of Jackson, who went to the devil the more quickly because of his family's death. "Beech," we believe, will stay put.

He possesses extreme speed, style and action, and the most perfect disposition of any stallion I have ever seen or handled. He has fine distinct gaits, and goes them all in a most attractive manner. You will note from his breeding that he has for his sire the famous old Red Bird, who has perhaps sired as many show, and sale horses as any stallion in Kentucky, and traces on his dam's side to Cabell's Lexington, conceded by all horsemen to be one of the greatest sires that ever lived. Raven Bird is one of Red Bird's greatest sons, and has proven himself an excellent breeder, and we have every reason to believe that, if he is given an opportunity he will make a reputation equal to that of his worthy sire. Most of the methods of "breaking up" hens from sitting are cruel, and tire and distress the innocent hens who are not to blame for their instinct. The kindest way is the following: When it is necessary to stop the inclination, place the hen in a nice clean coop alone with fresh grass and all the meat cut fine that she will eat. The meat immediately increases the egg nourishment, and while the hen is having a really good time she is fast preparing herself to commence laying eggs. It will take but two or three days before she forgets all about sitting, having other affairs to attend to.

Chinn Will Run.

A conference of announced and prospective candidates for the Democratic nomination for Congress in the Eighth district was held at the Victoria Hotel in Louisville for the purpose of centering upon and agreeing on one candidate to make the run against Congressman Harvey Helm, of Stanford, the incumbent. Those present were Judge Jere A. Sullivan, of Richmond; Judge John W. Sullivan and Col. Jack Chinn, of Harrodsburg; W. J. Price, of Danville; John H. Welch, of Nicholasville, and Senator W. E. Dowling, of Lawrenceburg.

The conference was called by Judge Hughes, and Judge Sullivan was selected as chairman. After considerable discussion as to who was the strongest man to make the race a secret ballot was taken with a view to settling the matter. When the votes were counted it was found that Judge Sullivan had received three, Judge Hughes one and Mr. Welch one. Before the ballot was taken Mr. Price declared that he was not a prospective candidate, and consequently would not participate in the ballot. Mr. Price said he regarded Judge Sullivan as clearly entitled to the support of all those who took part in the conference.

Immediately after this conference Judge Sullivan went into another conference at The Tyler with others of his friends.

After being closeted with them for some time he announced his candidacy against Congressman Helm and Col. Chinn.

Col. Chinn, at the close of the conference at the Victoria, declared that it was a "frame up" with a view of forcing him out of the race.

"Before the vote was taken," he said, "I told all present that I was the only announced candidate. I agreed to cast a vote, however, and voted for Judge Sullivan. When the result was announced he said he would make the race, provided his selection at the conference was made unanimous. By that time I had come to the conclusion that the whole proceeding was a farce, and told Judge Sullivan that if it required my vote to make his selection unanimous it would never be that way."

"I have been an avowed candidate for three months, and have now made up my mind to remain in the race to the last. I have been in the political game too long to be made the 'goat,' and so told the gentlemen who were a party to the 'frame-up.' They tried to 'horn' me from the track but it didn't go. I expect they will try to beat me, but they will know they have been to the races when they do."

The Lesson of the Titanic.

It is terrible and pathetically true that nothing of really great benefit to humanity can be accomplished save by the loss of life. Liberty is won through the carnage of battle, and civilization marches in the wake of the sword. Horrible as it was, the Titanic disaster will prove the means of saving thousands of lives at sea hereafter, for the strong arm of the law will in the future prohibit ships loaded with human freight from crossing the ocean unless carrying enough life boats to accommodate every passenger. Had the Titanic car-

ried a sufficient number of these, Marconi's greatest victory over the terrors of the deep would have been won on April 15, for the wireless telegraph did its wonderful work most nobly. In spite of the recklessness of going at high speed through iceberg infested waters, every soul on board would have been saved and picked up by the vessel which arrived in response to the S. O. S. flames shot through the air across the billows. Fewer swimming pools and palm gardens, elevators and ball rooms, and more life boats will be the enforced rule in ship-building in the future.—Todd County Times.

The Demands of the Swamp

are mosquitos. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength fails; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote, Wm. Fretwell, of Lucama, N. C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best of all stomach, liver and kidney ills. 50 cts at Paul Drug Co.

Seed Corn.

For many years the problem of good seed has not faced the farmer to such an extent as it does this Spring. The wet, warm weather last fall was most injurious to seed corn and its proper ripening and drying. In almost every field rotten shocks and rotten corn was prevalent, and it was a hard matter at husking time to select good seed. Even this selection should not be final, but the ears saved for seeding this spring should be carefully tested for germination. This will entail a great deal of careful work, but it will mean a full stand or a short one when summer comes, and this will result in a full crop condition of a two-thirds or three-fourths harvest. Farmers should look into this question fully as it is a very serious one.

The Democrats have commenced to quarrel in Kentucky. The trouble was started at the meeting of the Executive Committee in Louisville a few days ago. In calling the county and State conventions Gen. Haley discriminated against Louisville, and Louisville doesn't like to be discriminated against. Of course the good Democrats of Louisville have as much right to fair treatment as the good Democrats of other places, but Gen. Haley didn't think so, and that's where the trouble comes in. The Democracy of Louisville may have wounded the tender feelings of Gen. Haley by giving 5,000 majority to his old enemy, Governor McCreary, last November. A majority like that, when handed to one of the Generals enemies always hurts the feelings of a big Democrat like Gen. Haley. It's a pity, though, and a wonder, too, that the General's well-known love for party harmony didn't prevail upon him to do the right thing when he called those conventions for the Democratic party.—Larue County Herald.

There never was a time when people appreciated the real merits of Chamberlain's Cough Remedy more than now. This is shown by the increase in sales and voluntary testimonials from persons who have been cured by it. If you or your children are troubled with a cough or cold give it a trial and become acquainted with its good qualities. For sale by Paul Drug Co.

Mr. G. P. Smythe, a well-known attorney of this place, and an ardent supporter of Mr. Roosevelt, has been employed by the State Committee to go into the second district and prepare contested papers which will go before the National Committee. Mr. Smythe left for Owensboro and Henderson Monday.
